

## FAQs – Steel & Aluminium

- **Can all cans be recycled?**

Yes, all food, drink and pet food cans are readily recyclable. Please rinse before placing in your recycling bin.

- **Why do we have to wash cans? Surely, this is not environmentally friendly?**

Everything placed in your recycling bin should be clean, dry and loose. Any remaining food or liquid debris makes the material unsuitable for recycling. Also, food and liquid debris can contaminate other recyclates in your recycling bin. If possible use old washing-up water to rinse rather than under a running tap.

- **Is it best to fold or crumple clean aluminium foil?**

Please crumple aluminium foil.
